

Privacy Operations Centre

horizon
POWERED BY PRIVACY CULTURE

Your Privacy Partner of choice

By deploying our Privacy Operations Centre you can centralise and streamline your culture of privacy, buying in full capability at an instant. This can be an outsourced capability that encompasses all of your privacy programmes needs or a tailored solution offering skilled support for specific initiatives.

- Act as your DPO, single point of contact
- Develop and maintain your privacy framework policies and procedures
- Enhance your privacy governance models, embedding privacy functions in your organisation
- Manage your privacy by design and vendor assessments (including DPIA, TIA and LIA)
- Manage and monitor your privacy risks and mitigation programme
- Support privacy training and communications needs
- Assist with your organisation's ongoing privacy reporting
- DSAR management and support
- Support for board room reporting and audit committees
- Manage breach management and provide real-time support
- Support you in liaising with data protection authorities
- Act as your country representative

Making privacy add value to your business
