## Embed a culture of privacy with tailored training

It's time to strengthen your culture of privacy with Privacy Academy. Quality onsite and online interactive learning now allows you to proactively manage privacy. The aim is to enhance employee behaviours, reduce risk and embed an awareness of privacy deep in your organisation. Our vast catalogue can be quickly distributed to your employees with measurable results.

- **Amplify your employee's behaviours, knowledge and attitudes towards privacy**
- **Fill the gaps in your programme and improve your defensible position**
- **Deploy bespoke training for all functions, roles and jurisdictions**
- **Utilise training modules mapped to 12 privacy domains**
- **Measure your training requirements through our Privacy Culture tool**

# Strengthen privacy practices with focused training

It is time your workforce fully embraced a culture of privacy

 View a demo

**Are you just getting started?**  
Measure levels of awareness, identify gaps and weaknesses today with our culture and maturity assessments.

**Are you privacy aware, but need training?**  
We create a full learning campaign from communications to eLearning or onsite training modules. Programmes can target all employees, specific roles or departments.

**Do you need to embed a mature culture of privacy?**  
Our privacy specialists provide flexible training with campaigns tailored for your audience. We supply advertising and marketing material, as well as rich media tools including video, animation and quizzes, to drive engagement.

- 1 **Embed accountability into your business**  
Increase your privacy maturity and embed a culture of privacy
- 2 **Improve your defensible position**  
Be proactive, not reactive; identify gaps and mitigate
- 3 **Engage your workforce in the 'why' of privacy**  
By fostering employee engagement at all levels
- 4 **Embed a culture of privacy**  
With targeted training with flexible, bite-sized modules
- 5 **Hosted on our LMS or SCORM compliant modules**  
Operate within your training platform
