

Product Description

The Horizon Risk Dashboard is the ultimate solution for state-of-the-art privacy risk benchmarking. This cutting-edge platform helps you measure and benchmark your privacy position, so you can stay ahead of your privacy risks. With a comprehensive overview of your privacy risk across multiple areas and a user-friendly interface, you can monitor and manage your privacy risk in real-time across various jurisdictions and business functions.

The Risk Dashboard boasts several robust capabilities that leverage data from Culture Horizon, Maturity Horizon, and Learning Horizon. These three products provide a detailed perspective of your organisation's privacy status and equip you with the necessary resources to target controls, improvements and provides tailored training to prioritise privacy matters – where it matters most.

Features

- **Comprehensive Privacy Risk overview:** The Horizon Risk Dashboard provides a complete overview of your privacy risk profile, including an assessment of your data's exposure to potential breaches, vulnerabilities, and other risks.
- **Leverages data from Culture Horizon and Maturity Horizon** to identify the best training solutions to address your privacy vulnerabilities using Learning Horizon.
- **Real-Time Monitoring:** The Horizon Risk Dashboard is updated in real-time to reflect the tasks and actions assigned to multiple users on your team.
- **Actionable Insights:** Users receive detailed insights and recommendations on how to improve their privacy risk management practices and reduce their overall risk exposure.

Benefits

- **Reduce your privacy costs** by focusing risk priorities.
- **Stay ahead of your privacy risks:** The Horizon Risk Dashboard equips individuals and businesses with easy-to-use tools and resources to proactively address privacy issues and concerns.
- **Seamless integration:** The Horizon Dashboard seamlessly integrates into your existing framework, eliminating the need for system redesign.
- **Real-time monitoring:** The Horizon Dashboard dynamically updates with information from your organisation, providing you with the most accurate view of your privacy position.
- **Assess your privacy position:** The dashboard draws on data from 12 domains of privacy to benchmark your performance against industry peers.
- **Actionable insights:** The Privacy Risk Dashboard offers detailed insights and recommendations for improving privacy risk management practices and reducing overall risk exposure.

Who can benefit?

The Horizon Risk Dashboard is ideal for individuals and businesses who want to stay ahead of their privacy risks and upgrade their privacy practices to reflect a growing culture of privacy within their organisation.

The Horizon Risk Dashboard is a comprehensive solution designed to assist individuals and businesses in effectively managing their privacy risks. With the increasing prevalence of data breaches and privacy concerns, it has become imperative for organisations to implement robust privacy practices. The Horizon Risk Dashboard provides a user-friendly interface that allows users to easily monitor and evaluate their privacy risks, identify areas for improvement, and implement appropriate measures to mitigate those risks.

Whether you are an individual concerned about your personal privacy or a business looking to safeguard sensitive data, the Horizon Risk Dashboard offers a range of features to meet your needs. From risk assessment tools to privacy policy templates, the platform provides everything you need to stay ahead of privacy risks and comply with regulatory requirements.

Overall, the Horizon Risk Dashboard is an ideal solution for anyone looking to upgrade their privacy practices and stay ahead of privacy risks. With its comprehensive features and user-friendly interface, it offers a simple yet effective way to enhance privacy within your organisation and protect sensitive information.
